youth mappers

The logo for youth mappers features a stylized globe composed of orange, blue, and green shapes, with the word "youth" in a lowercase sans-serif font and "mappers" in a larger, bold sans-serif font.

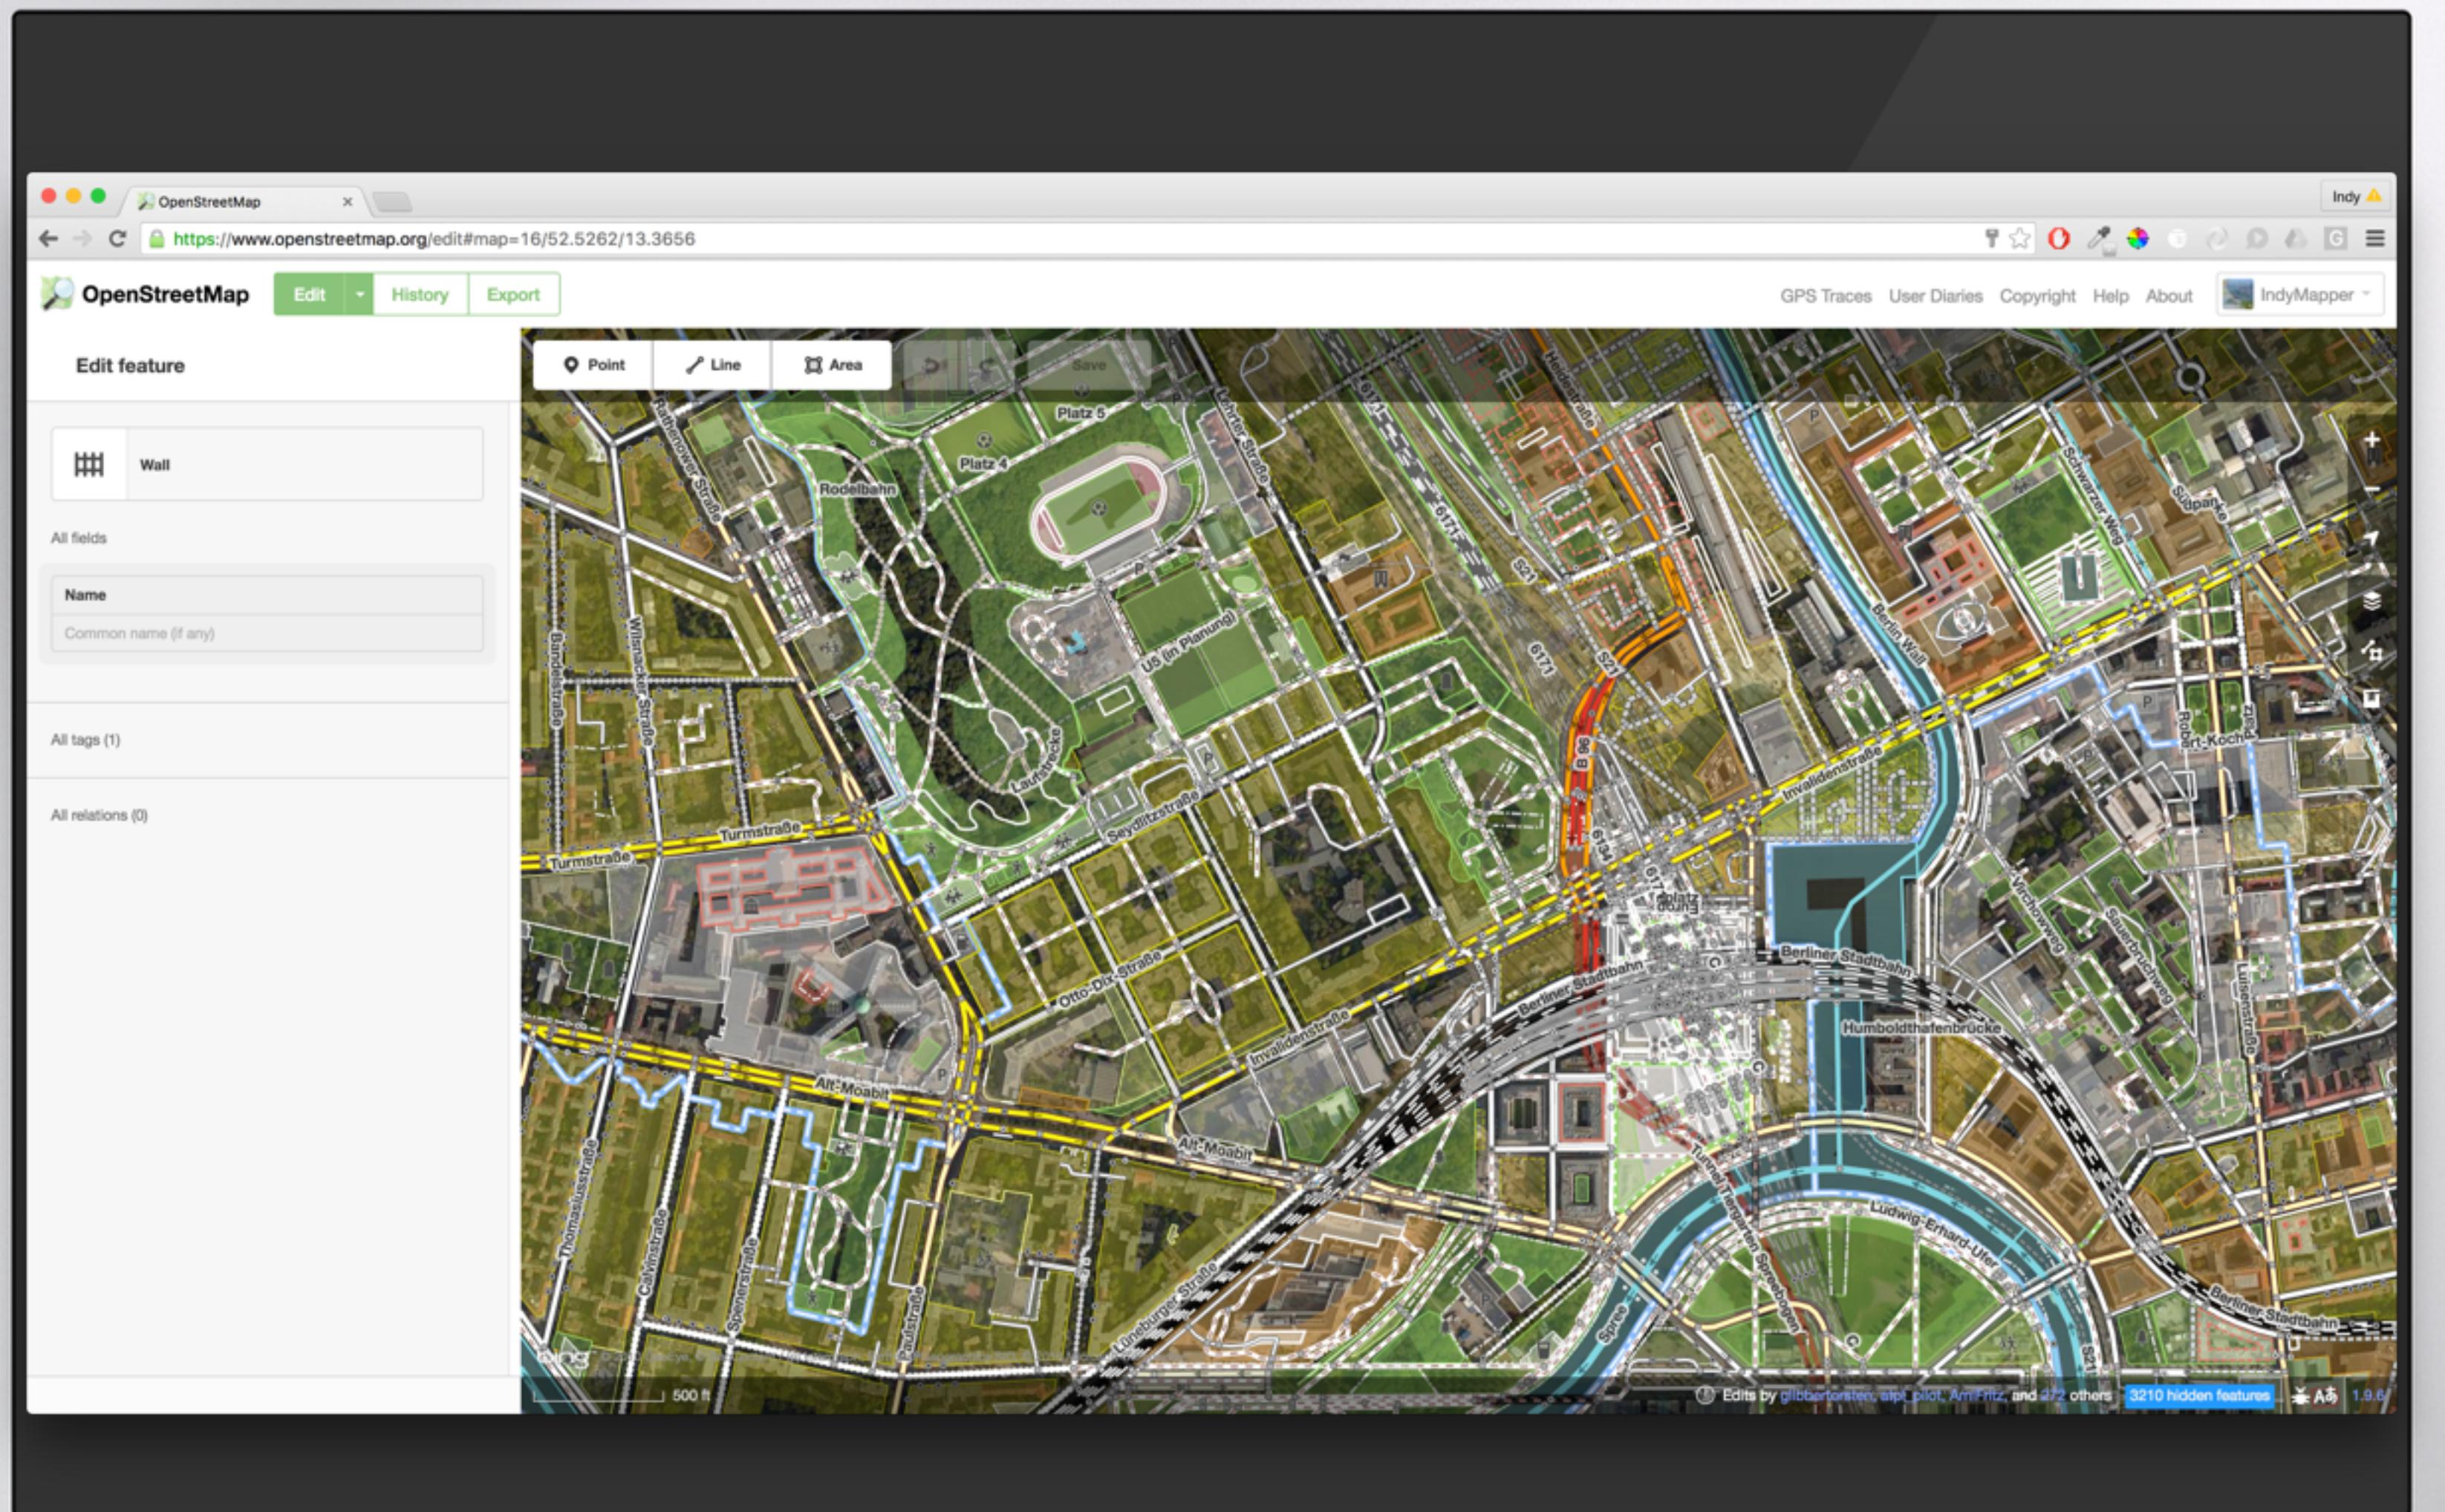

A baker's dozen!

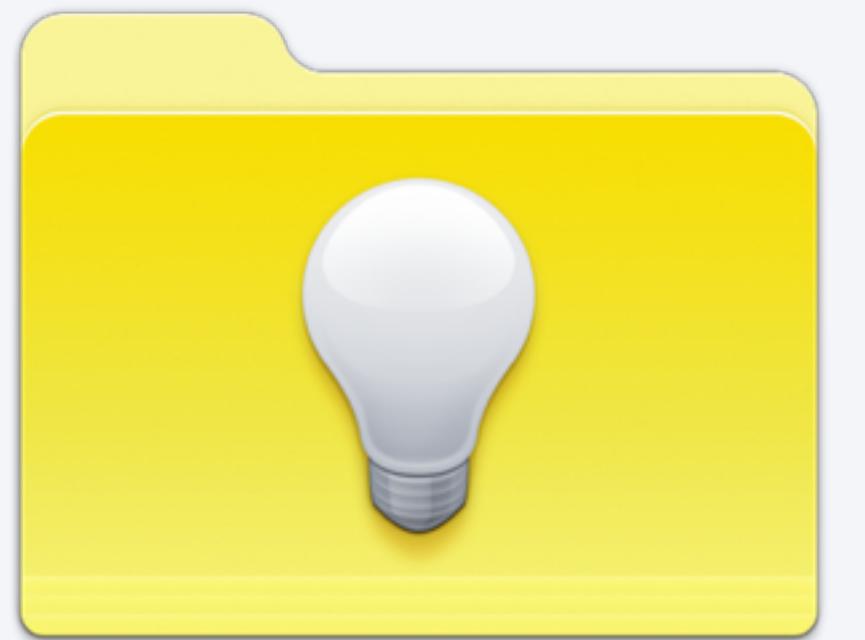

but first...

What's the
motivating factor?

@IndyMapper @mapzen and a tip of the hat to @kelsosCorner for his additions!
#TargetedEditing is so fun!

Tools for this tag

- [taginfo ↗](#), [fr ↗](#), [uk ↗](#), [ie ↗](#), [us ↗](#)
- [overpass-turbo ↗](#)

Feature : Buildings

Description
Used to describe many different sorts of buildings, including houses, factories and ruined buildings.

Tags

`building=*`
`height=*`
`building:levels=*`
`roof:levels=*`
`name=*`
`entrance=*`

Lodging

taginfo

The screenshot shows a web browser window for taginfo.org. The URL in the address bar is taginfo.openstreetmap.org/search?q=amenity%3Dhotel. The page title is "Tag:amenity=hotel - OpenStreetMap Wiki". The search results are displayed under the heading "SEARCH RESULTS" with the sub-instruction "You were searching for: amenity=hotel". The results are presented in a table titled "Tags". The table has three columns: "Count", "Key", and "Value". There are 20 items listed, spanning two pages. The first few rows show common variations of the amenity tag, such as "amenity" with values like "love_hotel", "hotel", and "Hotel". Other entries include "kvl_hro:amenity", "disused:amenity", and specific place types like "dog_spa;dog_hotel" and "hotel:conference_center".

Count	Key	Value
657	amenity	love_hotel
76	kvl_hro:amenity	hotel
59	amenity	hotel
38	amenity_1	hotel
19	amenity	Hotel
12	disused:amenity	hotel
11	abandoned:amenity	hotel
5	amenity_2	hotel
3	amenity:disused	hotel
3	old_amenity	hotel
1	amenity	dog_spa;dog_hotel
1	amenity	hotel:conference_center

100 ft

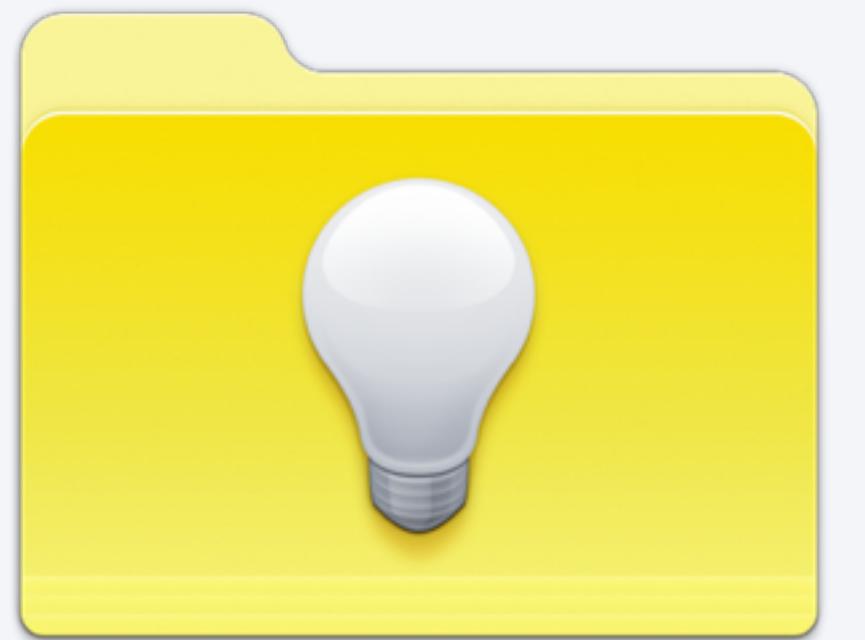

A 1.9.7

The screenshot shows the OpenStreetMap editor interface. At the top, there's a toolbar with standard window controls, a lock icon, and a URL bar. Below the toolbar, the OpenStreetMap logo is on the left, followed by menu items like 'Edit', 'History', and 'Export'. To the right are links for 'GPS Traces', 'User Diaries', 'Copyright', 'Help', and 'About', along with a dropdown for 'IndyMapper'.

The main area is titled 'Edit feature' and shows a 'Secondary Road' selected. On the left, there's a sidebar with fields for 'Name', 'Common name (if any)', 'One Way' (with a checked checkbox), 'Speed Limit' (set to 30 mph), and 'Structure' (with options for Bridge, Tunnel, and Embankment). Below these are buttons for 'View on openstreetmap.org' and 'highway=*'.

The central part of the screen displays a satellite map of a street intersection. A red line represents the road being edited, which starts at 'West Garfield Street' and ends at '14th Avenue West'. A green polygon highlights the area around the road. A white info box is overlaid on the map, containing icons for 'Point', 'Line', 'Area', and 'Save', along with a close button 'X'.

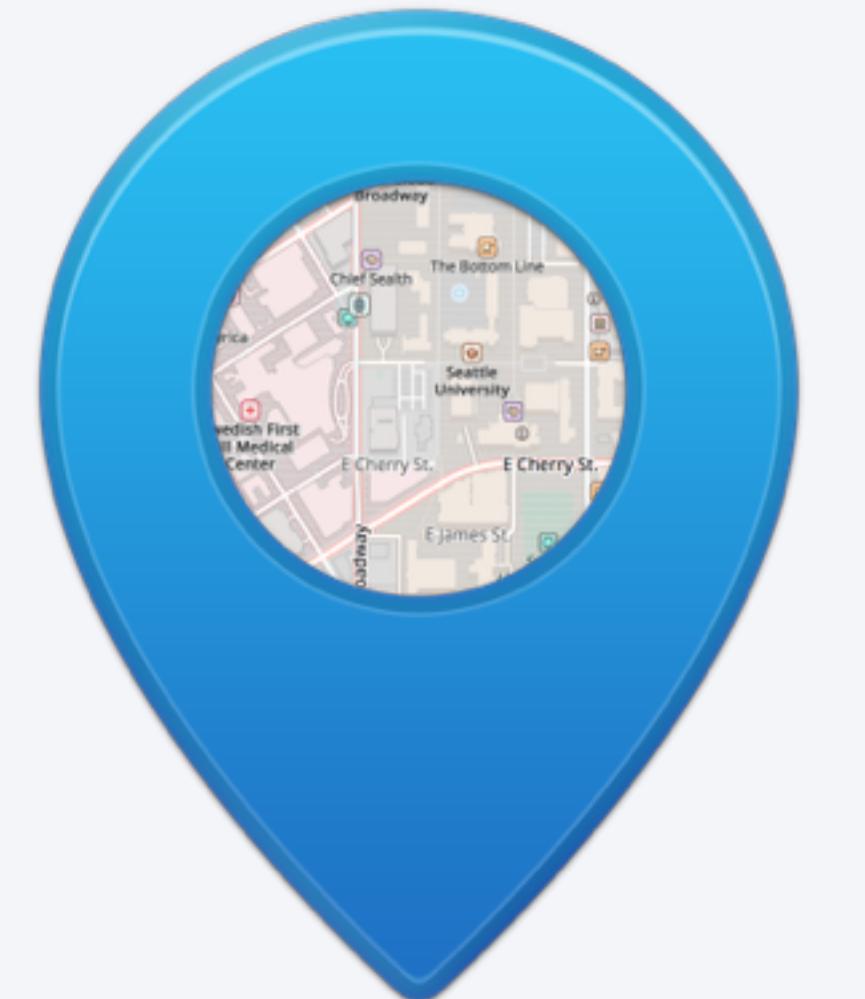

At the bottom of the map, there's a scale bar indicating '100 ft' and a copyright notice from 'bing © 2016 Microsoft Corporation'. In the bottom right corner of the editor window, there's a version number 'A 1.9.7'.
